curriculum*

Artistic Figures

These significant individuals, both historical and contemporary, have profoundly influenced the world of art as it is understood today. These figures will be explored during art lessons across all year groups. They will inspire children to view art as a potential career path and deepen their appreciation of art's relevance in culture and society. Additionally, connections have been made to local artists and creative initiatives, both past and present, to support children's aspirations for their future in the arts. These are highlighted with a green border throughout.

Reception

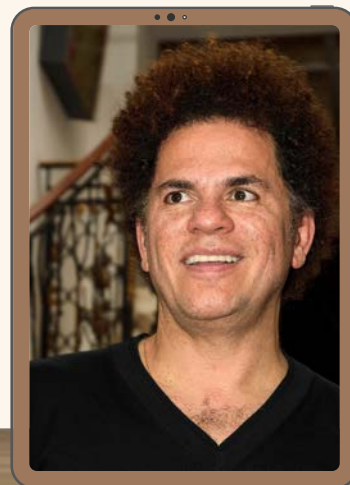

Jackson Pollock
1912-1956
